BHT	Product free of preservatives and additives
BHA	Product free of preservatives and additives

PRODUCTION PROCESS:

Consists of emulsifying method whereby chocolate (non-powder form) is immersed in water at specific temperature with no other substances added. The mixture is placed in a mold and sprinkled with candied orange. When the product is completely cooled, the chocolate square is removed from the mold and vacuum sealed.

MODE OF CONSERVATION and DMD (date of minimum durability)

The product is conserved through **vacuum sealing** and maintained refrigerated preferably **between 3°C and 6°C**. The DMD is measured at 8°C, with a duration of **150 days**.

BREIF DESCRIPTION OF THE PRODUCT:

Orange Squares are made of a **dense chocolate cream** emulsified with water and sprinkled with **candied orange**. The product does not contain any additives such as palm oil, hydrogenated fats, nor artificial aromas or colors, preservatives, or acidifiers. It can be cut into squares.

Chox is an innovative natural product of high quality, with an unexpected consistency, that makes it “fresh” with respect to its innovation, departure from the usual, and most importantly, the pureness of its form and flavor.

BREIF DESCRIPTION OF THE COMPANY:

Chox was born three years ago through an innovative project of the product's creator, a consultant and instructor of marketing, communication, and innovation, with a background in pharmacy and flavor science. After a period of further experimentation, development and consumer testing, the company's founder added a talented group of professionals to his staff and Chox, as we know it today, came to fruition. Chox is produced in the laboratory of chocolatier Eppigner Bom Bom a Trieste, Italy.
